# Case Study Bawardi Group

Phase 1

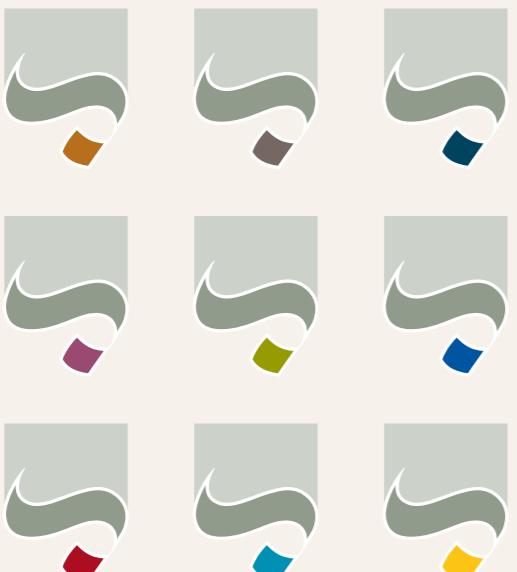

The client in question was a big, multifaceted family business; it relied on monolithic branding; and its names began with the Arabic letter 'baa'.

Taking the name as starting points, Al Mohtaraf soon crystallized the visual identity into the family initials, interestingly enough all baa's. By thus doing, Al Mohtaraf not only conducted an exercise in maintaining a variety of treatments on one consistent element, but also introduced the Arabic script into a mode of branding previously widespread in Latin design solutions.

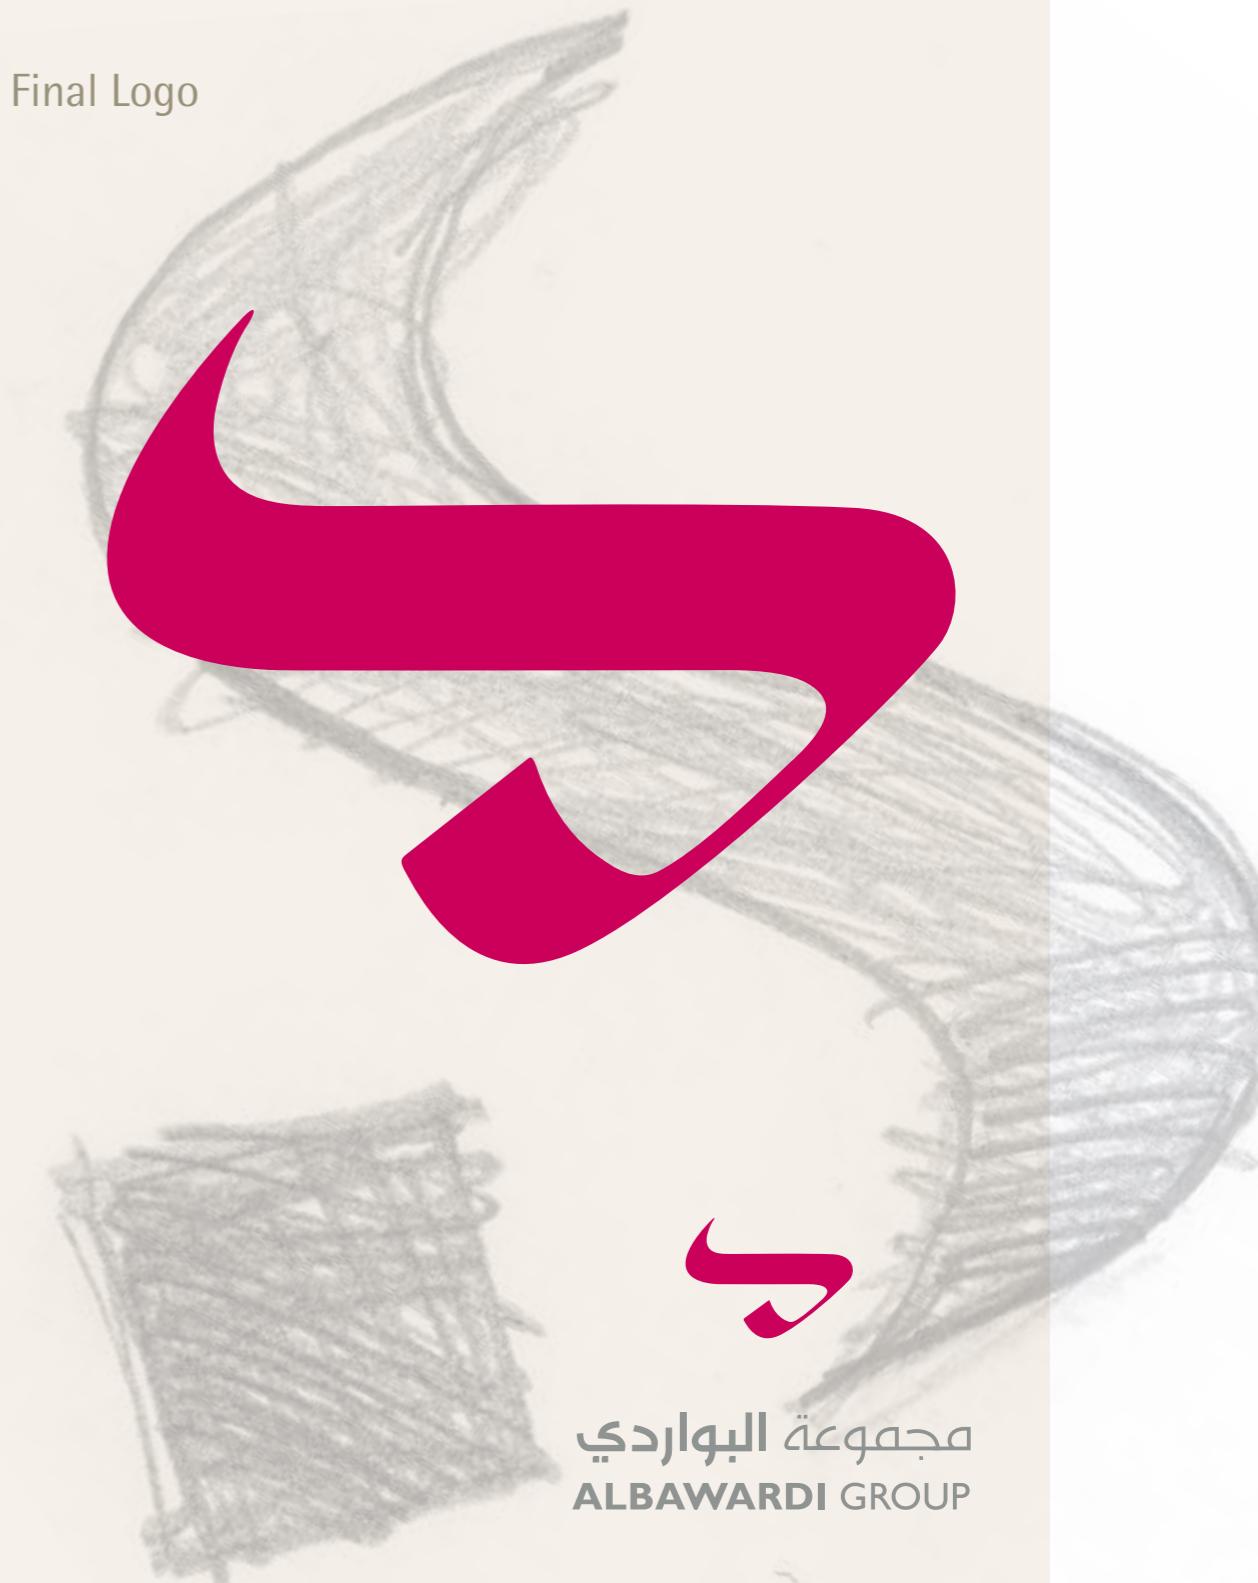

All Process

Phase 2

Final Logo

# Case Studies:

# Case Study Rabea Tea

To unify the expanded range, Baeshen has given its Rabea label a complete makeover. Renown for its expertise in Arabic typefaces, Al Mohtaraf was specifically commissioned to design the Arabic version of the established logo.

The design process included many studies pertaining to the development of a unique Arabic wordmark for Rabea tea. Experiments were also conducted onto the leaf symbol and the word 'shay' (Arabic for tea).

## Name & Leaf Trials

## Logo experimentation

## Arabic adaptation

## Final Logo

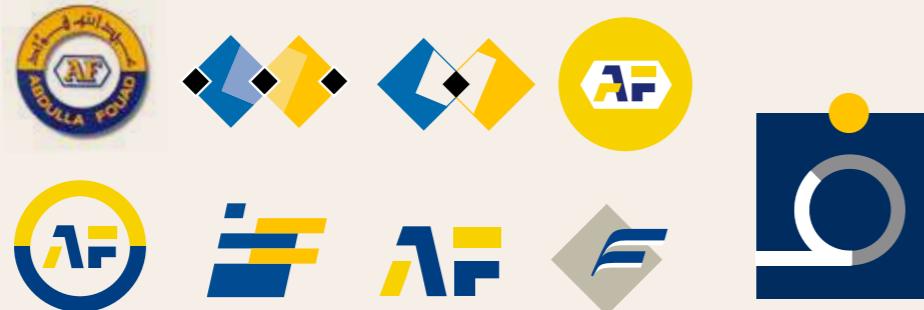

# Case Study Abdallah Fouad Holding

## Phase 1

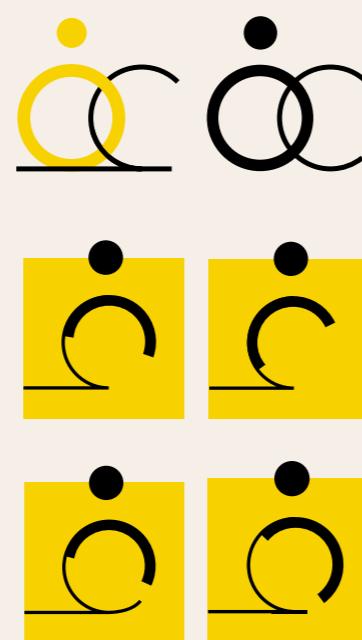

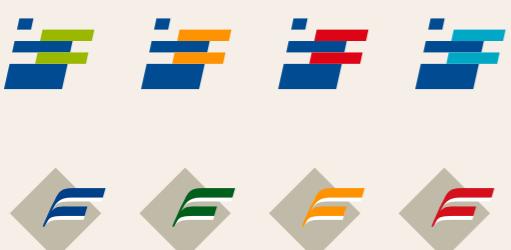

The original logo for Abdulla Fouad holding company was too complex.

The first stage of the redesign process was to remove the logotype from the ring and create a symbol from the initials 'A' & 'F'. The hexagonal form will somehow lead to the diamond shapes suggested in the following logo developments.

## Phase 2

Another approach experimented with the geometric forms of Arabic glyphs 'ain' and 'fa', the initials from the Arabic name of Abdulla Fouad. Both letterforms are variations on the circular shape, while the 'ain' has an open counter, the 'fa' is simply accompanied by a dot. The overlapping of the two letterforms created an interesting play of visuals.

## Final Logo

arabic logotype

The Saudi Professional League chose Al Mohtaraf to design the visual identity and applications of their commission, and for that Al Mohtaraf researched into the pool of competitor league commissions, both Arab and international, to produce a logo whose visual vocabulary is harmonious with that pool, but that is also distinct and contextually specific. The applications included all stationery and forms, signage, and also covered banners, sportswear, and an official magazine featuring match programs, reviews, and interviews with prominent Saudi football players.

latin logotype

## SPL match programme

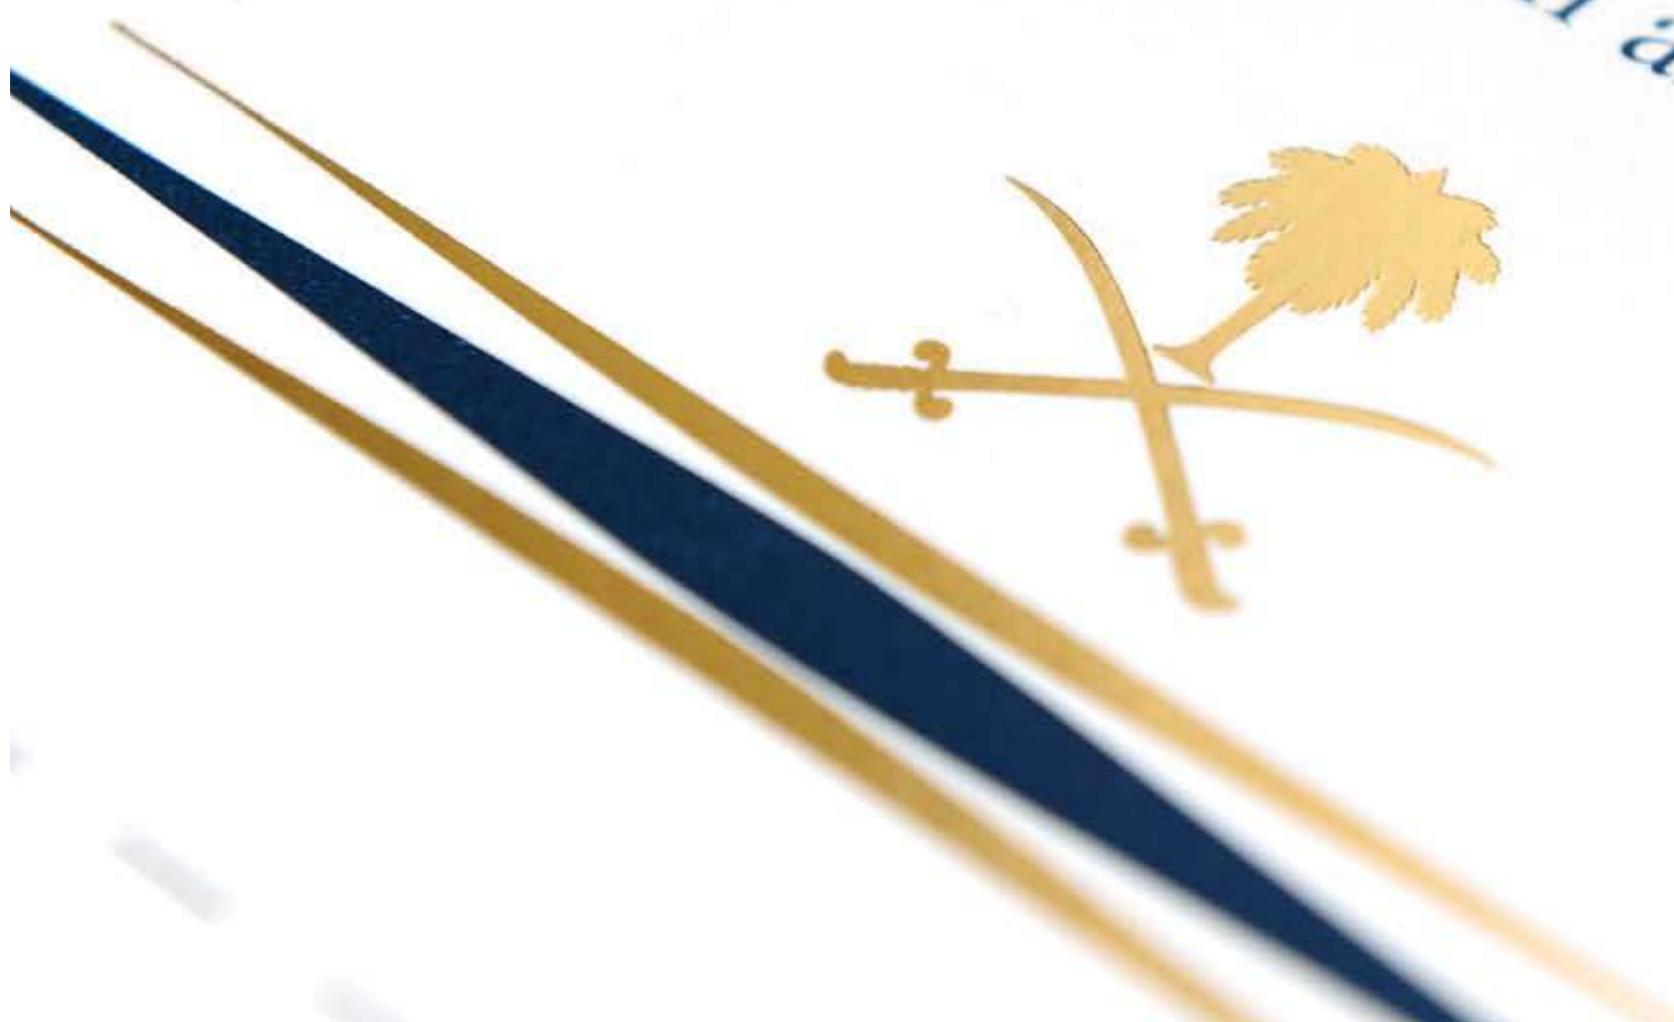

Dedicated to a large fan base, Saudi Professional League Commision publishes the essential match day programme.

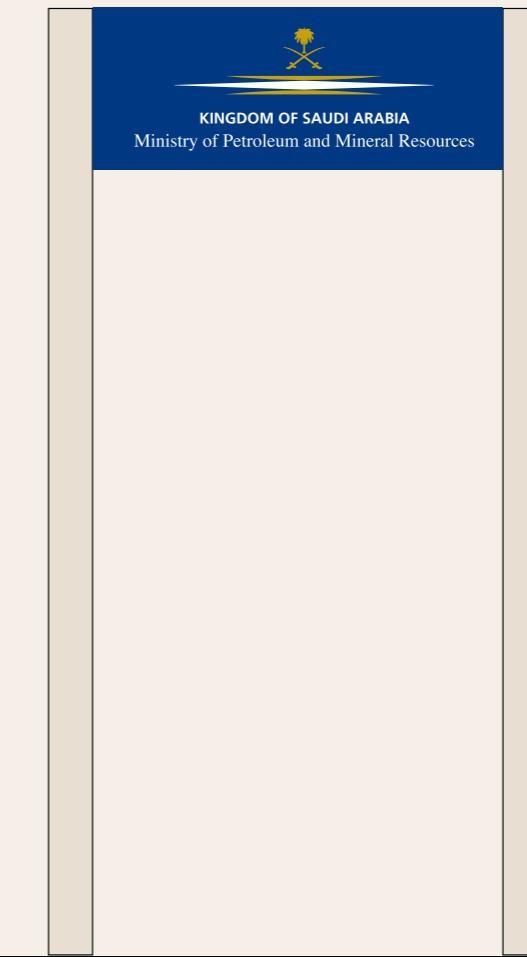

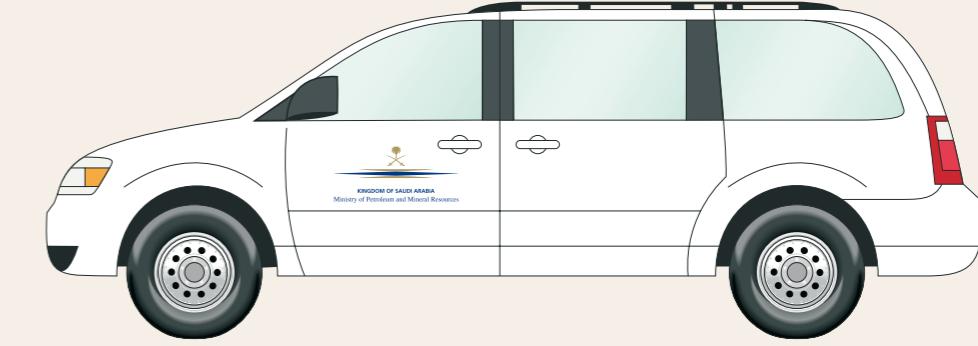

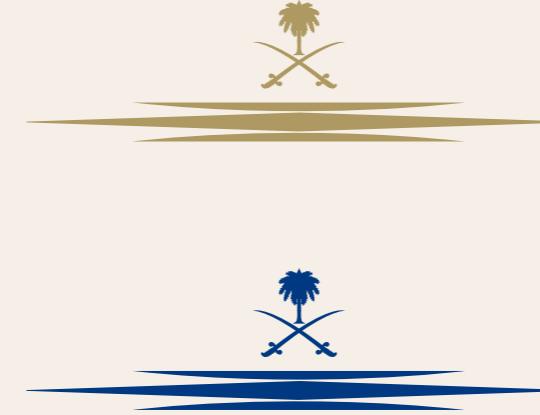

continued its commission to Al Mohtaraf for the design and production of the official match day programme magazine. This exclusively produced editorial from SPL in collaboration with Al Mohtaraf reflects everything that is going on in the Saudi football season, featuring all you need to know about the matches, exclusive articles and interviews, competitions, facts and statistics and much more. The SPL Match Programme offers a complete overview of the upcoming league game, analysing every aspect of both match-day opponents to a large Saudi fan base that is increasingly growing. The look and feel of the magazine is developed as a

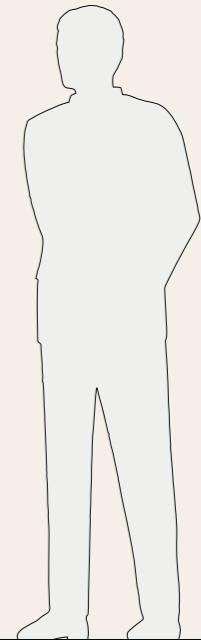

The surface of the earth appears to hold together boundless riches. This is the starting point of this logo. The curved lines convey the feeling of a dense flow. While the three layers clearly symbolize the earth strata, the color reflects the two domains of oil (dark petrol blue) and mineral resource (gold).

# Total Identities Ministry of Petroleum and Mineral Resources

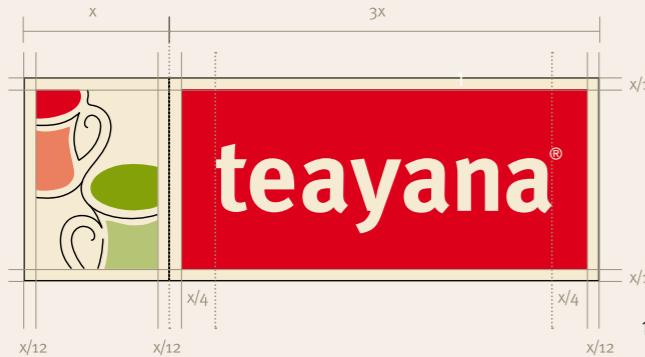

When trying to determine the most appropriate sign type for a building application, the following should be taken into consideration: landlord and city/local restrictions, background materials and colors, visibility and lines of sight, building size, colors and sizes of other sign types in the vicinity, electrical hook-ups and availability and background material surface obstructions.

# Total Identities Teayana

1. teayana® logo was designed to convey both aspects of the brand and can be divided into two parts: the logo symbol which conveys the mood of the tea lounge and the logotype which emphasizes the brand name.

2-3. Design of an original Arabic logotype corresponding to the English version. A variation of the logo for both Arabic and English languages was created for particular retail applications.

4-5. The identity manual for teayana® included the design of delivery items, packages, costumess, signs and vehicles.

## LOGO PLACEMENT

# Total Identities Suraye

2.5cm

Al Sorayi Group is a prominent manufacturer and trader of carpets, rugs, furniture, and fabrics. The logo had to reflect the history of the group in this business. The 'seen' treatment reflecting the wavy effect of fabrics is at the heart of the design concept.

This is the destination Area.  
Aligns with the top edge of AlSorayi logo at 2.5cm.  
The text in this area should not exceed 8 lines.  
The typesetting is in Arial Regular 10pt over 16pt line spacing.

Text should never flow beyond this point...

...BaF user,  
please follow the specified guidelines put forward in the letter in order to  
achieve a homogenous look across all correspondence coming out of  
Al Sorayi Group.

Margins:  
The Red line on the left designates the starting point of the text, as shown here. It also acts as the first mark for folding the letter into a DL envelope size. The left margin for the text to start is 2.4 cm and the right margin is 6.3cm. Text should never run out of these specified margins or it would ruin the whole look of the letter, as shown here. These margins are studied to give the best readability results. Longer sentences per line will start to exhaust the reader.

Text Setting:  
All correspondence text should be set in ARIAL Regular. The body text of the letter should be set in Arial Regular, size 10pt over 13 pt line spacing, as shown here. Please specify accordingly the exact line spacing in MS WORD under: Format > Paragraph > Line Spacing > Exactly > 13 pt. For listing items in a text please use Bullets, as shown here.

# Events Branding.

# Events Branding Third Opec Summit

قمة أوبك الثالثة  
Third OPEC Summit  
Riyadh 2007 هـ ١٤٢٨

Luxurious date box. Dates booklet and map accompanied by a set of postcards.

Al Mohtaraf changes one more time, the idea of what a conference gift must look like. Those who attended the third OPEC summit in Riyadh will probably never forget what they received. As the host of this major event, Saudi Arabia wished to show its guests the values inherent to its culture: hospitality and celebration of cultural diversity. As a result, the conference souvenirs and VIP gifts, were two very different items yet equally praised for their concept and design: luxurious box of 40 different types of dates accompanied by a booklet holding a description of the best known varieties of dates with a map revealing the areas where each type of date grows. a set of calendars grouping photographs and information about the 12 countries participating in the summit.

Children's photography from each country member of OPEC illustrating the Third Summit's set of calendars.

# Events Branding *Clean Development Mechanism*

المؤتمر الدولي الأول  
لآلية التنمية النظيفة ٢٠٠٦  
في المملكة العربية السعودية

1st International Conference on  
**Clean Development Mechanism 2006**  
in Saudi Arabia

Advertisements for The International Conference on Clean Development in the Financial Times and Herald Tribune.

Designing the visual identity for the International Conference on Clean Development Mechanism (CDM) was a challenge Al Mohtaraf undertook with pleasure; it was necessary that the work be clear, eye-catching and complementary to the message of cleanliness and subtleness, which the event carried.

The outcome, which was a bird whose wings were made of leaves and whose colours ranged between fresh lime to aqua blue, was not a mere logo, but an icon. It marked the poster, stationary, and stands of the event with an altogether unforgettable character.

# Events Branding *Malakiyya jbeil & Yunbu*

On the third occasion of collaboration between Al Mohtarak and The Royal Commission of Jbeil and Yunbu', Al Mohtarak designed the full visual identity for the commission's 30th anniversary, including an event book that functioned as a timeline for the company from its establishment in 1976 until the present.

The way  
we start.

## MAIN CONSIDERATIONS

**The graphic branding system  
for the central department of statistics in Saudi Arabia  
needs to communicate the following values:**

- **national & official**  
reflect the ministerial context of its functionality
- **contemporary & up-to-date**  
reflect the up-to-date information system of its data collection
- **reliable & communicative**  
flexibly adaptable to various communication formats and official publications

# **1.2. concept development**

# THE STATISTICAL FIELDS OF RESEARCH (THE THREE SECTORS OF ECONOMY)

## SOCIETY & DEMOGRAPHY

## COMMERCE & INDUSTRY

## AGRICULTURE & RESOURCES

The statistical fields of research can be grouped into three main categories corresponding to the economic sectors. Three colors are used to represent each sector: yellow for society and industry, blue for commerce and enterprise, and green for agriculture and resources.

This color scheme is also borrowed from photographic imagery relevant to each economic sector. It helps in establishing a consistent visual identity for the Central Department of Statistics in Saudi Arabia.

# SYMBOL DEVELOPMENT

THE OFFICIAL MARK

THE SYMBOL

THE COLORS

Integrating the official mark of the double swords and palm tree within the symbol establishes the direct association between CDSI and the Ministry of Economy and Planning. It therefore reduces the necessity to have it as an additional symbol.

The three colors symbolizing the economic sectors are used as vertical bars adjacent to the official mark. Like bars in a graph, they symbolize statistical research and representation of data. A simple and effective visual solution which does not affect the impact of official mark.

## BILINGUAL LOGO DESIGN

وزارة الإقتصاد والتخطيط  
مصلحة الإحصاءات والمعلومات

ARABIC LOGO

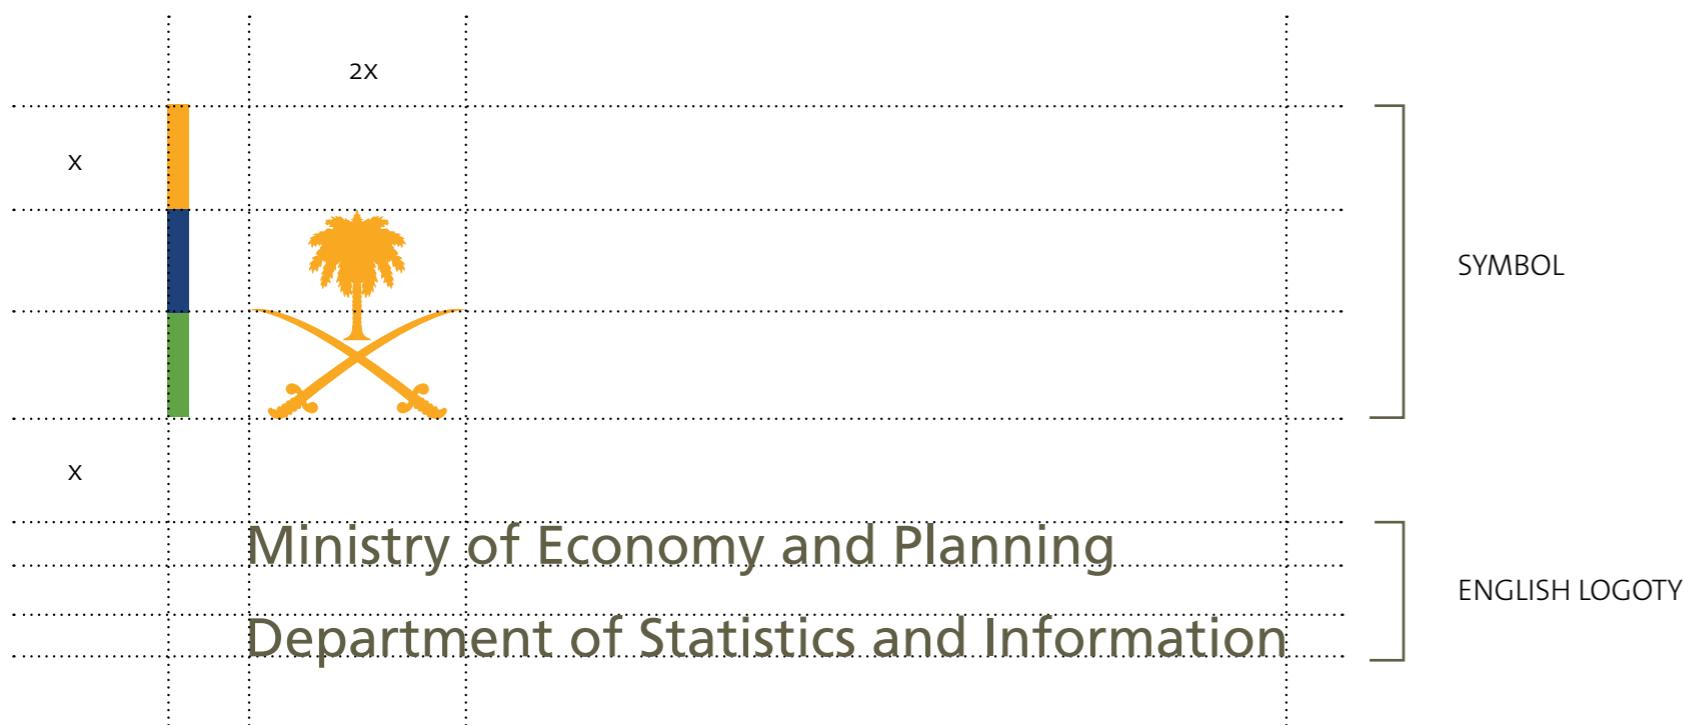

Ministry of Economy and Planning  
Department of Statistics and Information

ENGLISH LOGO

In order to avoid a long logotype in both Arabic and English languages, two separate versions of the logo are designed to be used appropriately on either English or Arabic communication material or publications.

An original Arabic logotype is designed to provide the Arabic logo with a high profile, neutral yet contemporary visual solution which creates the same accurate visual impact as the Latin logotype.

## LOGO PROPORTIONS

The proportions of the logo are based on the unit of the bar from the symbol design. The height of the bar establishes the width of the official mark adjacent to it which equals its double. It also sets the distance between the symbol and the logotype for both languages.

# **1.3. visual identity elements**

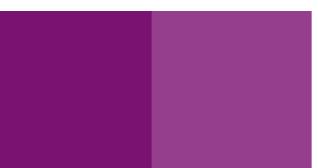

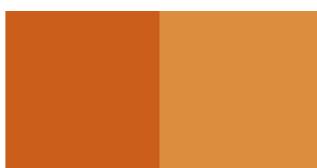

# COLOR SCHEME

## PRIMARY COLOR PALETTE

The signature color for this identity is a saturated yellow orange color. This color reflects the dynamic activity of the Central Department of Statistics and Information. It is balanced by a contrasting gray which acts as a neutralizing color. Blue and green are also part of the main color palette as they are central to the logo design.

## SECONDARY COLOR PALETTE

ENERGY

RESOURCES

POPULATION

MONETARY AFFAIRS

HEALTH

An additional color palette is developed to represent additional statistical fields of study within the three main sectors.

## TYPEFACES

**A B C D E F G H I J K L M N O P Q R S T U V W X Y Z**

An original custom design for the Arabic alphabet greatly affects the quality of the visual identity.

A sample typeface previously designed by Mohtaraf shows how the visual identity's typeface can be designed not only to match the visual impact of its Latin counterpart but also to create a contemporary visual solution.

The Latin typeface used here is Frutiger. Frutiger has different weights which make it appropriate for both titles and text usages.

## 50TH ANNIVERSARY EMBLEM PROPOSAL

The 50th anniversary emblem is designed to work with the visual style of the logo symbol. It integrates the primary color palette developed for the visual identity of the Central Department of Statistics and Information.

STATIS/KSA is a visual pun where the words STATISTICS and KSA are merged in this particular instance to celebrate the long history of statistical research within the Kingdom of Saudi Arabia

> consistent visual language  
layout areas / colored blocks or bars

> consistent visual style  
photography or graphic style

> obvious grid system

> fixed logo placement

> corporate color scheme

---

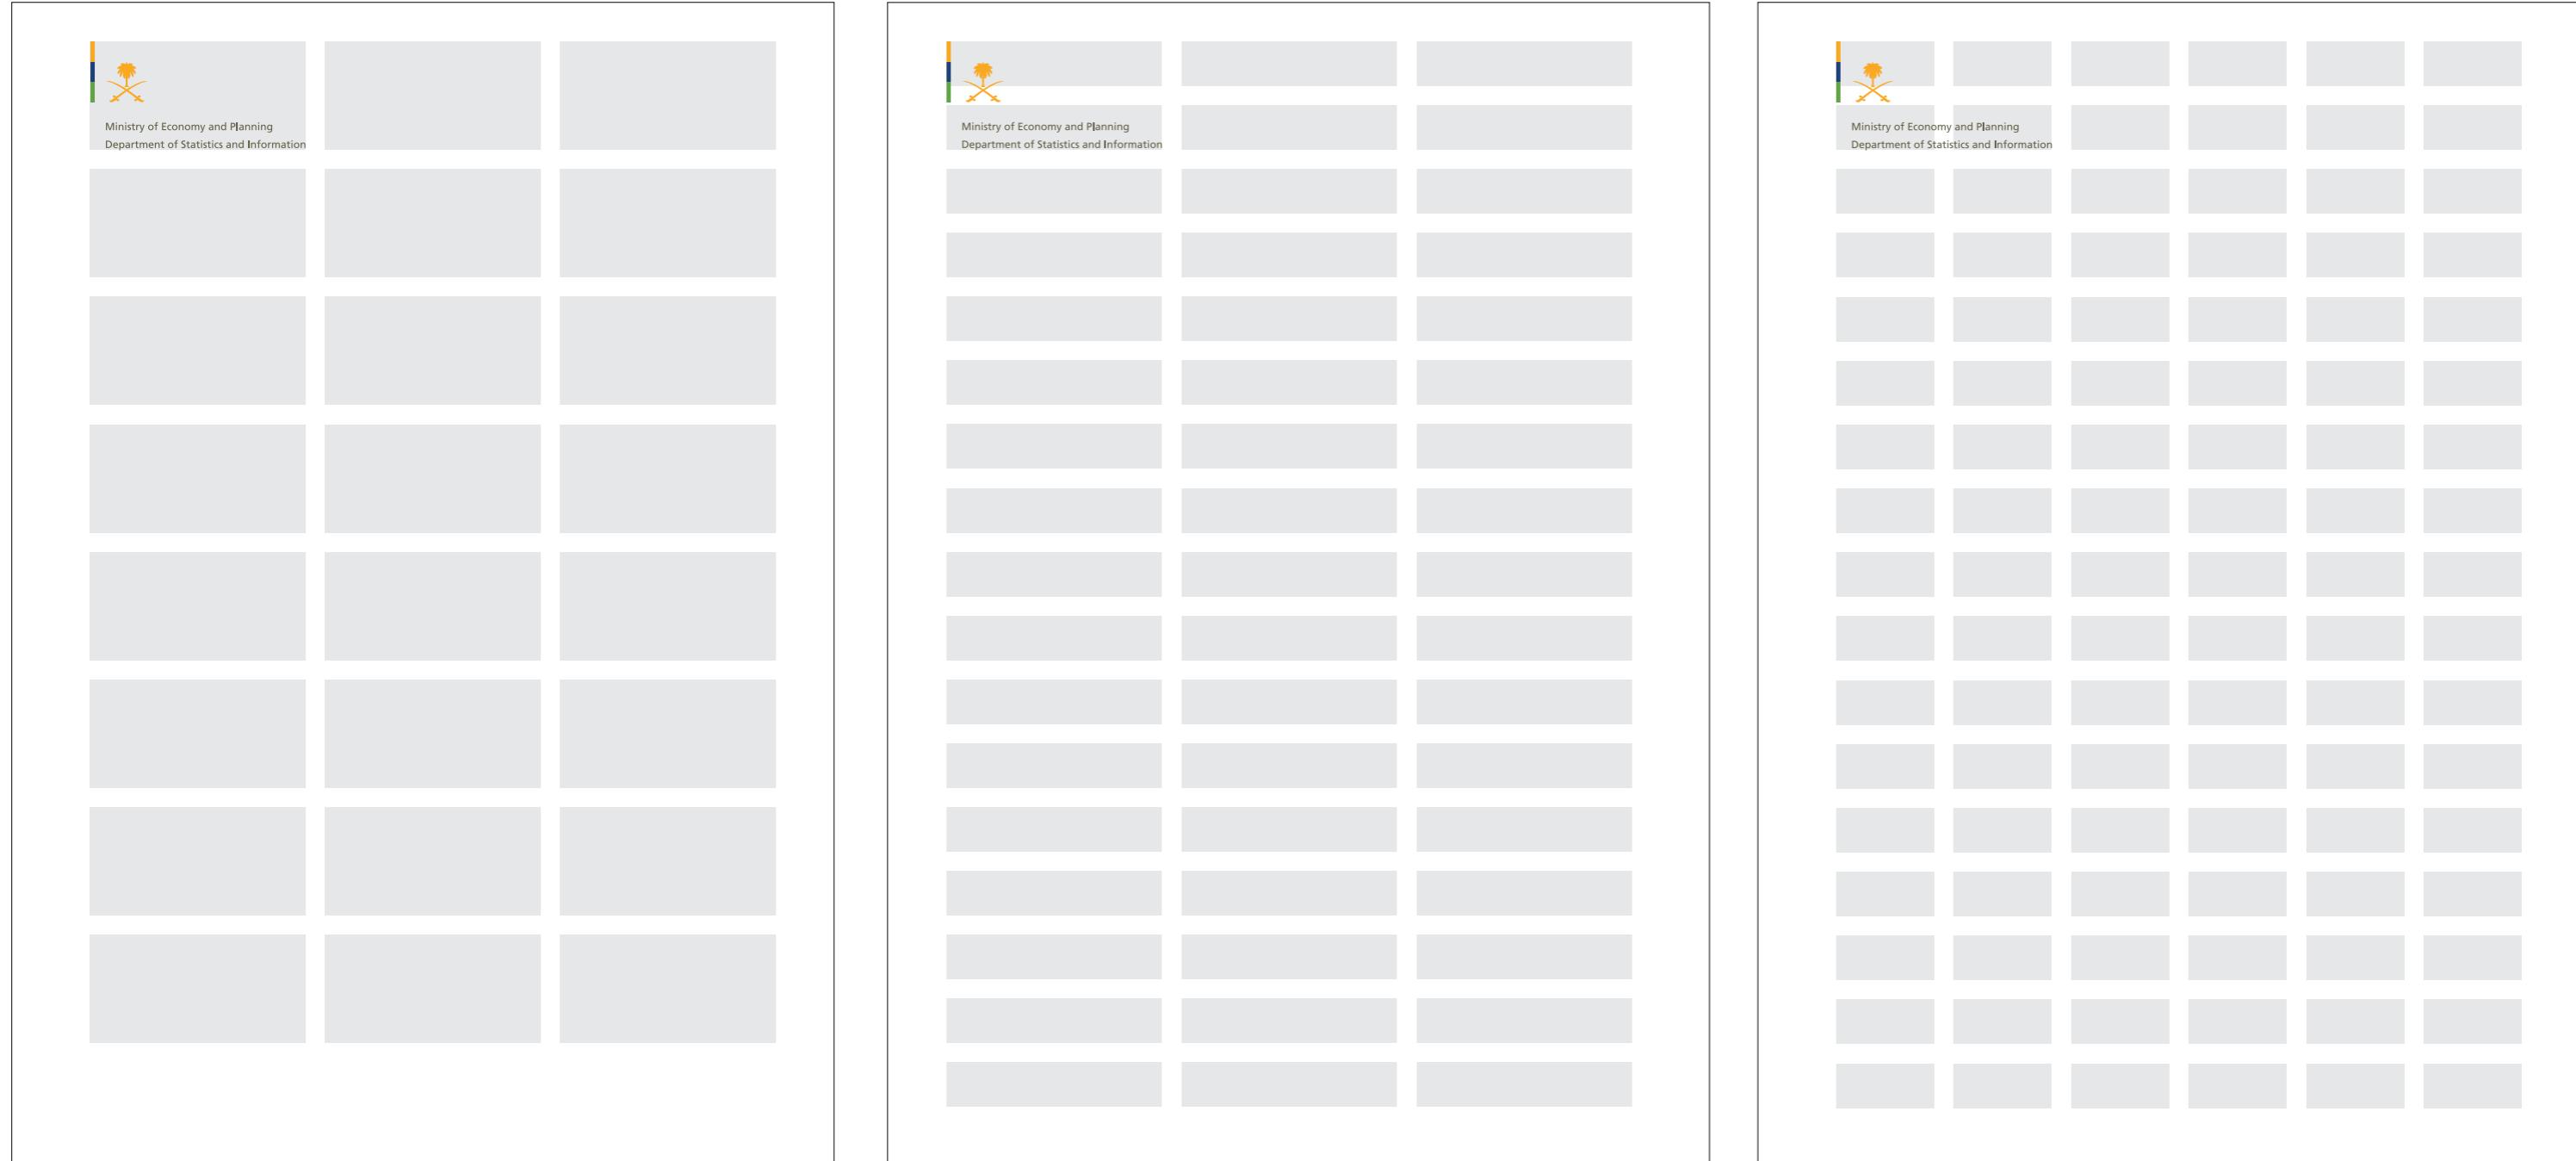

## MAIN CONSIDERATIONS

**The visual identity system for publications  
needs to take into account:**

- **variety & consistency**  
a recognizable visual system for all publications
- **easy implementation & flexibility**  
a flexible grid for layouts including text, image, graphs and diagrams
- **arabic & english languages**  
a simple visual solution which can be adapted consistently in both languages

## **2.2. cover guidelines**

# THE MASTER GRID

A grid for A4 page layouts is developed from the logo size and placement on a page. The grid naturally allows for three or six columns to fit information and therefore allow for flexibility in layouts for publications such as reports and accounts.

The master grid is the essential skeleton which ties together all the elements (logo, titles, image and graphic devices). It therefore sets the invisible structure which helps establish a system for series of publications.

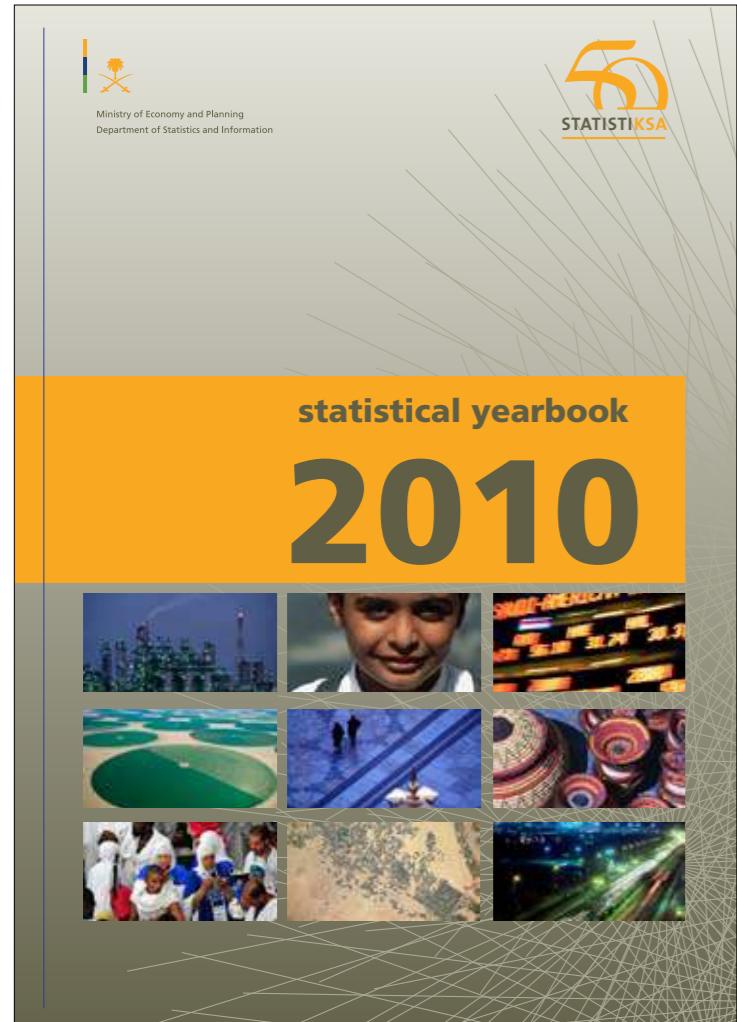

## THE MODULAR SYSTEM OF COVERS

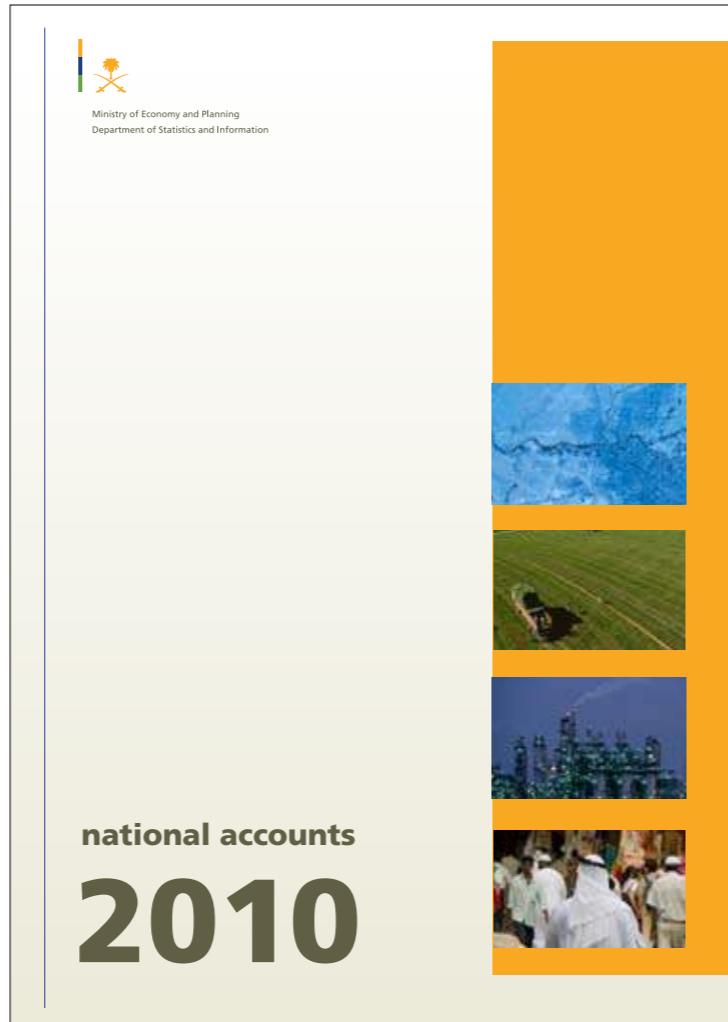

Various cover designs can be made to fit on the grid. The logo placement does not change however the placement of images and titles can flexibly vary on the grid for each type of publication.

One image is mostly appropriate for specialized publications focusing on research relevant to a single issue. The usage of several images on the cover appears to be usual for annual publications like yearbooks or national accounts.

## COVER DESIGNS FOR ANNUAL PUBLICATIONS

ENGLISH COVERS

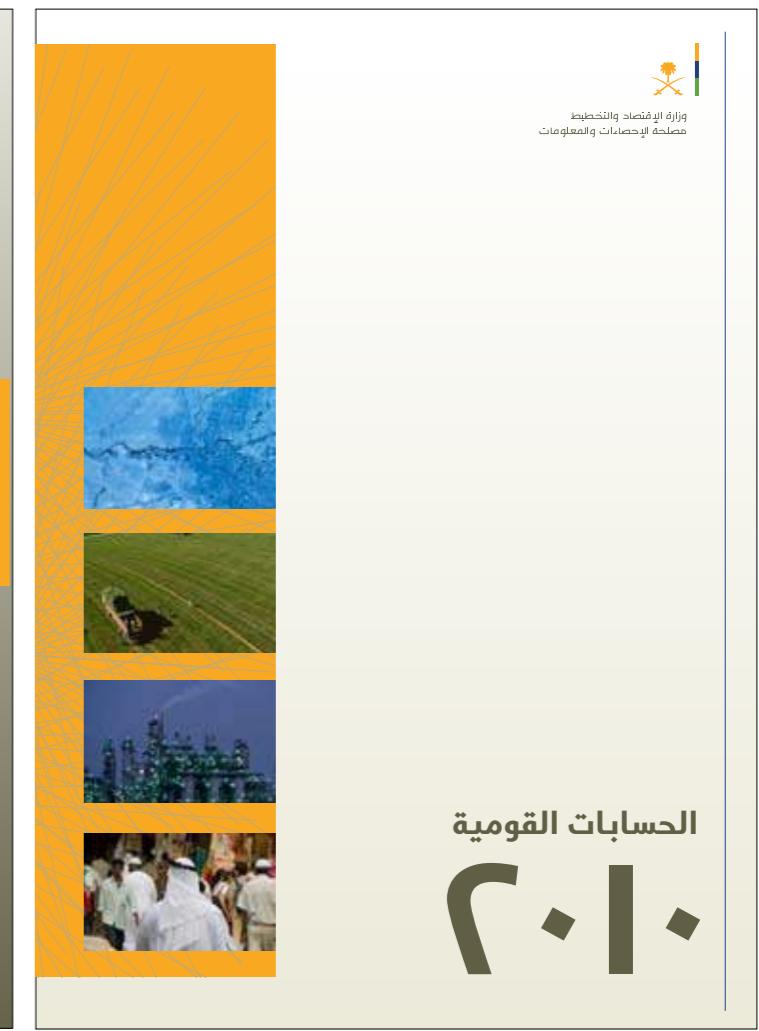

ENGLISH COVERS

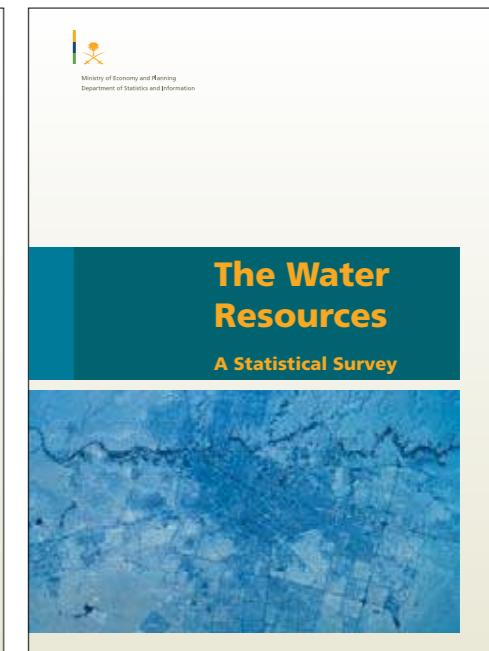

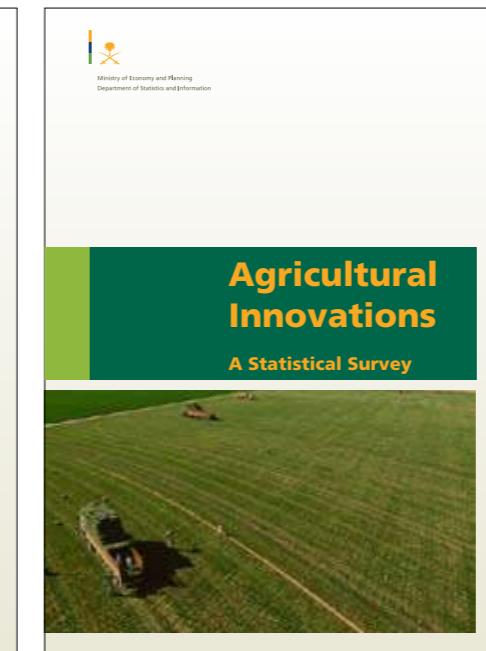

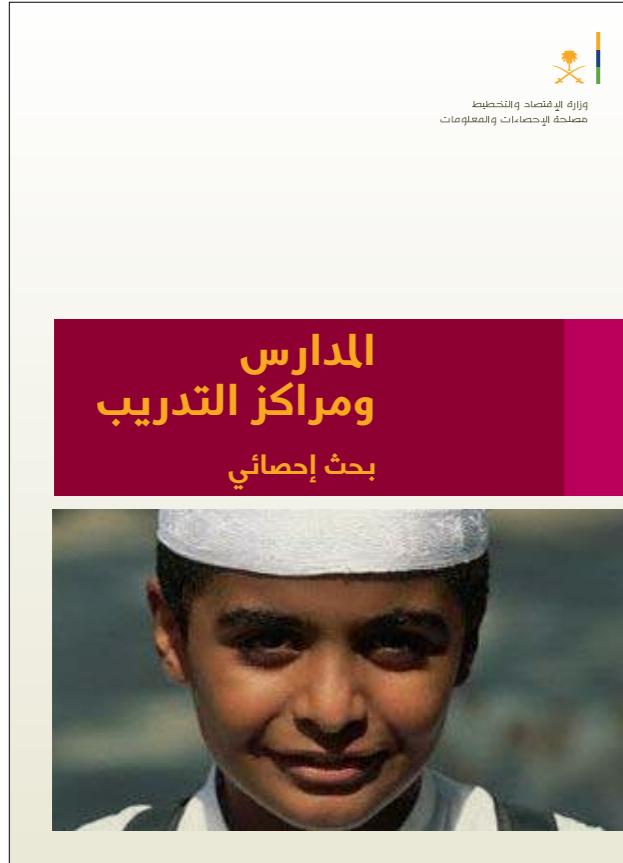

ARABIC COVERS

الحسابات القومية

## COVER DESIGNS FOR SECTOR-RELATED PUBLICATIONS

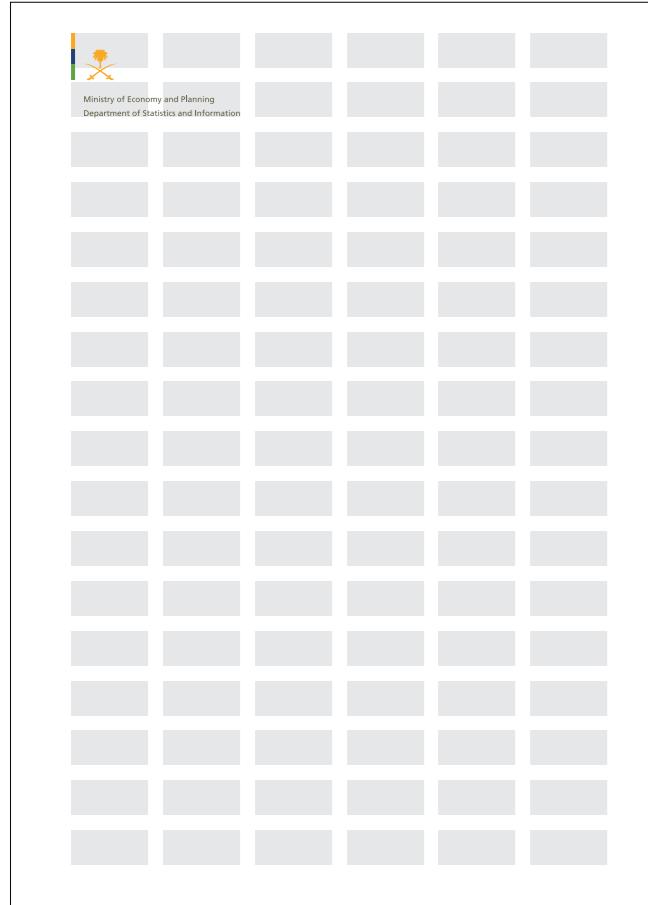

The colored bar in these cases makes use of the secondary color palette developed for the visual identity in relation to the subject of the publication. The signature color is used for titles and a vertical bar locked to the left side of the colored bar, creating a series of publications.

In such cases the grid is used to fit one single image which helps illustrate the title. Photographs have to be strong and not overcrowded, with the main focus on few elements.

# **2.3. page layout study**

# MASTER GRID AND LAYOUT FLEXIBILITY OR INSIDE PAGES

one-column grid for introductions and specific publications

two-column grid for annual publications like yearbook and national accounts

three-column grid for various reports and analytical documents

# LAYOUT ADAPTATIONS FOR ENGLISH AND ARABIC

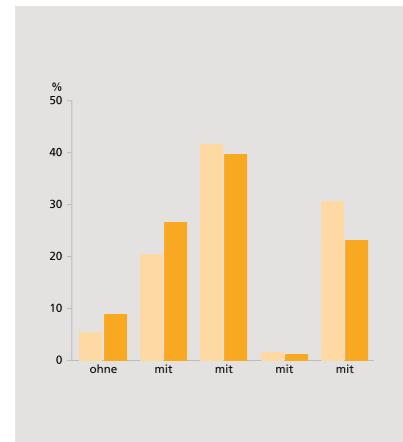

The grid allows for the flexible placement of images, graphs, diagrams and text on the page. The text for the preface fits in one column on the grid, whereas the rest of the text fits in two columns in order to use the space in an efficient way in publications with large amounts of text.

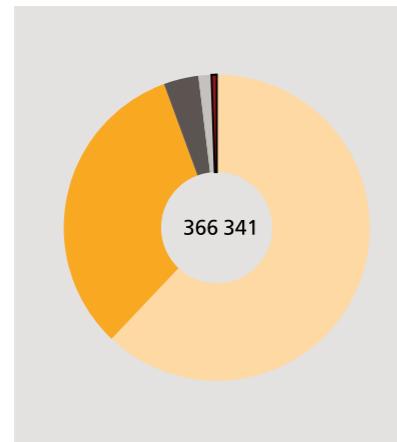

Arabic and English layouts follow the same grid and visual system whereby the colors palette and corporate typefaces are consistently implemented in order to preserve the visual identity of any publication.

A micrograph showing a dense cluster of small, dark, granular structures, likely spores or microconidia, on a light-colored, textured surface. The clusters vary in size and density, appearing as dark spots against a lighter background.

An aerial photograph showing a large agricultural field divided into several long, narrow plots. The plots are arranged in a grid pattern, with some plots containing a vibrant red crop and others a lush green crop. The paths between the plots are dirt roads, and a few small buildings or structures are visible in the distance.
